

50mm x 50mm Security Mesh Fencing Information Sheet

50mm x 50mm Security Mesh Fencing

Our 50mm x 50mm welded-wire mesh system has proven a reliable intermediate specification fencing option for internal full height enclosures.

Fixed at the floor, we also provide the option for additional support via soffit fixings.

Options to factory-weld the mesh panels to the 50mm SHS support framework can be specified to ensure the installation is additionally tamper-proof.

Complete flexibility across our range of RAL colours for polyester powder coating, allowing your fencing to be tailored to your project's needs.

Specification
