

TIMBER SLAT FENCING

Strength, Security, and Natural Design

The Timber Slat Fencing system combines security, sustainability, and design flexibility, making it the ideal solution for commercial projects, public spaces, and residential developments. Built around a robust galvanised 80mm SHS steel framework and clad with FSC-certified timber, it delivers strength, sustainability, and aesthetic appeal in equal measure. Available in nine timber finishes and with a choice of locking systems, this fencing adapts seamlessly to project requirements, whether above or below ground. Backed by a 10-year manufacturer's warranty and proudly Made in Britain, it's a secure, environmentally responsible solution that enhances any site. This system balances strength, security, and natural design, making it ideal for developments that demand functionality and visual quality. It's perfect for any development with customisable finishes and multiple locking options.

- › **Sustainable Timber:** Selection of hard and softwood timbers, all FSC-certified for responsible sourcing
- › **Durable Framework:** Fixed to galvanised mild steel 80mm SHS framework for long-lasting strength
- › **Custom Design:** Nine timber cladding options to match your site's design and character
- › **Flexible Security:** Variety of locking options available to meet different project needs
- › **Adaptable Installation:** Suitable for both underground and overground fixing
- › **Guaranteed Quality:** 10-Year manufacturer's warranty
- › **Made in Britain:** Designed and manufactured to the highest UK standards

TIMBER SLAT FENCING

The Timber Slat Fencing system provides a secure and sustainable enclosure solution for cycle storage, plant equipment, and commercial spaces. Built from a galvanised steel framework and FSC-certified timber, it offers nine cladding options, flexible fixing methods, and long-lasting durability with a 10-year warranty.

Customisation that Works for You

Every site is different which is why this fencing is built to adapt:

- › **Framework:** 80mm galvanised mild steel SHS
- › **Fixing Options:** Underground or overground
- › **Cladding Options:** Sapele, Larch, Thermopine, Black Thermopine, Euro Class B/C, Treated Softwood, Western Red Cedar, Canadian Red Cedar, Composite
- › **Locking Options:** Multiple high-security choices available
- › **Sustainability:** All timber is FSC-certified
- › **Warranty:** 10-Year manufacturing warranty

We offer a wide range of FSC-certified timber cladding options, designed to balance sustainability, durability, and visual appeal. From rich hardwoods like Sapele and Canadian Red Cedar, through versatile softwoods such as Larch and Thermopine, to modern composite finishes, each option provides its own character.
