

## Two Tier E-Bike Rack Information Sheet

### Two Tier E-Bike

As e-bikes continue to grow in popularity, our Two Tier E-Bike Racks provide excellent high-density storage for your cyclists.

Access to the second tier of the rack is aided by the EasyGrip handles, lightweight steel and gas-assisted mechanism that takes the weight of the bike during the mounting and unmounting processes.

The rack's secure steel locking hoop and fast access plug sockets also mean that visitors to your site can park up and plug in with limited hassle.

Contact us today for a free quotation.
