

Lincoln Two Tier Cycle Shelter Information Sheet

Lincoln Two Tier Cycle Shelter

Our Lincoln Two Tier Cycle Shelter is a premium, modern shelter that combines a clean aesthetic with functionality perfectly.

Designed with clear glass panelling this shelter boasts perfect visibility of the housed cycles and allows no loss of ambient light inside the shelter, increasing security and peace of mind.

The Lincoln Shelter houses a two-tier cycle rack. One shelter can be extended to house any volume of cycles or can be grouped in a multiple shelter layout as suits your project and environment.

Featuring our mild steel 80mm frame and 8mm toughened glass, topped off with a bespoke vinyl motif option for signage or branding to stand out in any space.
